

The map displays the contiguous United States with various aviation categories overlaid. The background is predominantly green, indicating VFR conditions. Blue areas represent MVFR conditions, and red areas represent IFR conditions. Pink areas represent LIFR conditions. Numerous numerical values are scattered across the map, likely representing altitudes or flight levels. A legend in the bottom right corner, titled "Aviation Categories", provides the key for the colors: VFR (green), MVFR (blue), IFR (red), and LIFR (pink).
