

The map displays the following aviation categories across the United States:

- VFR (Green):** The vast majority of the land area is categorized as VFR.
- MVFR (Blue):** Several small, isolated areas are categorized as MVFR, including a small region in the central US and a small area in the northeast.
- IFR (Red):** No areas are currently categorized as IFR.
- LIFR (Pink):** No areas are currently categorized as LIFR.

The map also shows state boundaries and major cities, providing a geographical context for the aviation data.
